CELEBRATING NATIONAL POLICE WEEK MAY 15 - 21, 2011

In 1962, President John F. Kennedy signed a proclamation which designated May 15th as Peace Officers Memorial Day and the week in which that date falls as [Police Week](#). FirstNet Learning is grateful for the work done by law enforcement officers and appreciates the amount of ongoing training done by these women and men throughout their careers.

FirstNet Learning knows an investment in training is an investment in Risk Management. When FNL's CEO, Roy Burger, first met Gordon Graham of Lexipol, he knew that he'd found a leader and an organization with the same philosophy. Together FNL and Lexipol have partnered to uniquely and affordably deliver online law enforcement training so that learners may prevent problems before they ever occur. Focused on high risk areas, this training covers core, critical tasks and helps you **make every day a training day!**

We invite you to [contact us](#) to learn more and demo for yourself this proactive training program designed to daily deliver and reinforce learning.

CUSTOM ONLINE ORIENTATION COURSE for NEW EMPLOYEES

New employees are at a higher risk for being involved in a job-related accident. It is estimated that most accidents occur within an employee's first six months on a new job. This is mainly because new employees are not fully aware of the hazards in their new work environment.

The New Employee Orientation course provides an overview of the safety issues that employees might encounter in their new jobs, including Slips, Trips, and Falls; Accidents and Emergencies; Fire Safety; Ergonomics and Back Safety; Bloodborne Pathogens; Personal Protective Equipment; Defensive Driving; and Hazard Communications.

With the New Employee Orientation course, you may customize the introductory lesson with your organization's specific content. FirstNet Learning has created templates to allow you to insert your own text, graphics, and audio to be bundled as part of the New Employee Orientation course. We also have options for the leaders of your clients' organizations to provide a personalized introduction!

[Contact Julie Lavorini](#), Manager of Curriculum and Course Development to learn more about customizing this course for your needs.

COURSES for SEASONAL to SEASONED EMPLOYEES

Safety Awareness for Seasonal Employees: Every seasonal employee should have a good overview of safety considerations. Statistics show that new employees are more susceptible to accidents than more experienced workers.

Working Outdoors in Warm Weather Climates: Working outdoors in the summer can be a great way to enjoy Mother Nature but it has its own set of hazards. Learn to recognize the dangers and how to prevent problems related to elements of nature.

Effective Law Enforcement Communication: As a law enforcement officer, it's important to have a good understanding of law enforcement communication. This course covers a variety of situations and how to handle them effectively.

Sexual Harassment Prevention: Sexual harassment in the workplace remains prevalent, with 11,717 cases received by the EEOC in 2010. FNL's online courses train employees, managers, and supervisors - including courses that meet California AB1825 requirements. Whether training 1 or 100,000, training Sexual Harassment Prevention online will save you time, money and materials.

But I Don't Have Customers!: We ALL have customers! Take this course and learn to understand internal customer service, communicate effectively with customers, handle internal customer conflict, and create an internal customer service plan.

Other Timely & Timeless Courses to Consider:

- Ethics
- Conflict Management
- Fire Prevention
- Ladder Safety
- Communication Essentials
- Diversity Awareness
- Fall Protection
- Defensive Driving
- Supervising Difficult Behavior
- Hiring Winning Talent
- Emergency Disaster Preparedness
- Trenching and Excavation Safety
