# INTRODUCING FIRSTNET TRAC.Path™

(Talent Recognition And Career Pathing)

Has your boss ever made a request like this?

*"I need someone in Portland fast! Give me a list of our employees with an MBA, experience in managing a sales team, fluent in Spanish, and willing to relocate."*

## FirstNet Learning now offers TRAC.Path

Introducing FirstNet's new integrated software tool designed to assist executives, HR personnel, and other managers in identifying, selecting, and hiring qualified candidates to fill job openings and aid in succession planning.

TRAC.Path automates and facilitates this normally complex process by allowing employees to conveniently submit their education and job histories, skills, and career focus to the online training system that already stores their user profiles and training data.

The powerful and user-friendly TRAC.Path search tool then allows authorized managers to query the user database through efficient user interfaces utilizing both structured query tools as well as simple wild card searches.

TRAC.Path can be easily integrated into any FirstNet Learning MasterCampus® or Online University, and utilizes user records and training data already captured in FirstNet Learning's learning management system.

**FirstNet's TRAC.Path is available now!**
